SUMMARY

Enthusiastic and detail-oriented Web Developer with proficiency in HTML, CSS, JavaScript, React, Bootstrap, and Tailwind CSS. Solid understanding of SQL and database management. Eager to leverage technical skills and creativity to design and deploy engaging websites. Adept at collaborating with cross-functional teams to deliver projects on time and exceeding expectations.

EXPERIENCE

Web Developer Intern

Zidio Development

04/2024 - 07/2024 Mumbai

Company Description

- Duration:** 3-month internship focused on gaining hands-on experience in web development.
- Projects Undertaken :**
 - 1.Feedback Collection Application :** Developed a web application using Frontend React js, Vite js, Tailwind CSS, and libraries like react-router-dom, react-hot-toast, xlsx, file-sever, react-loader-spinner, react-hot-toast and axios for the frontend. For the backend, we've used Node js, MongoDB, express js, mongoose, nodemon, cors, bcryptjs, dotenv, and jsonwebtoken. for collecting user feedback.Implemented a user-friendly interface with form validation to ensure data accuracy.Integrated backend functionalities to store and retrieve feedback data using SQL databases.
 - 2.Chat Application :** Designed and implemented a real-time chat application utilizing Frontend React js, Chakra UI, and libraries like react-router-dom, react-hot-toast, react-notification-badge, react-scrollable-feed, react-toastify, socket.io and axios for the frontend. For the backend, we've used Node js, MongoDB, express js, mongoose, nodemon, cors, bcryptjs, dotenv, and jsonwebtoken.Built the frontend using React and styled it with Bootstrap and Tailwind CSS for responsive design.Implemented backend server logic to handle message routing and storage using Node js and Express.
- Skills Acquired :** React js

Freelance Developer

- Designed and developed 2+ basic websites for small businesses and individual clients, focusing on clean design and user-friendly interfaces.
- Collaborated with clients to understand their needs and translate them into functional websites that align with their brand and goals.
- Utilized HTML, CSS, and JavaScript to create responsive and visually appealing websites that work seamlessly on various devices.
- Customized existing website templates to meet client specifications, ensuring a unique and personalized look.
- Assisted clients with domain registration and web hosting setup, ensuring smooth website deployment.

PROJECTS

Lamborghini Models Page Clone

- A sleek Lamborghini Models Page Clone, designed purely with HTML & CSS. This project showcases my dedication to detail and my passion for automotive excellence, mirroring the iconic style of Lamborghini. From pixel-perfect layouts to responsive design ensuring flawless display across devices, this clone is a testament to my skills in creating visually stunning and high-performing web pages.

Apple Page Clone

- Successfully recreated a clone of Apple's website homepage using React.js, incorporating React Router for seamless navigation between pages.
- Implemented a responsive design to ensure compatibility across various devices and screen sizes.

News App

- Developed a dynamic news application using React, showcasing strong front-end development skills.
- Utilized Bootstrap to create a responsive and visually appealing user interface, ensuring compatibility across various devices and screen sizes.
- Fetched real-time news data from NewsAPI, handling asynchronous operations to ensure up-to-date content.
- Implemented client-side routing with React Router to enable smooth transitions between different news categories.
- Created an intuitive and user-friendly interface, making it easy for users to navigate and access news articles by category.
